

12th SERBIAN FLORA AND FAUNA OPEN DAY

— *In Memory of Goran Savić, YT2A* —

This September 26th will mark 14 years since Goran Savić (YT2A) passed away. Goran was a true, sincere lover of the Flora and Fauna program, a pioneer of these activities in Serbia, and our first great activator.

This year, on July 12th, Šandor Makra (YT7E) from Ada also passed away. Šandor was a huge enthusiast of the YUFF program who participated in every Memorial since its inception on behalf of the YU7ADY team. This Memorial will be a special occasion to remember him and ensure his dedication is never forgotten!

Event Details

We warmly invite you to participate in this memorial event:

- **Date:** Sunday, September 20, 2026
 - **Time:** From 00:00 to 23:59 UTC
 - **Objective:** To honor the memory of Goran Savić and Šandor Makra, encourage activity across global and YUFF protected zones, stimulate YUFF reference hunters, and promote flora and fauna programs worldwide.
-

Rules for Activators

1. Station & Team Operations

- **Single Station Limit:** Only one station is allowed to operate from a single protected zone.
- **Group Operations:** If an organized group of radio amateurs visits a zone and announces operations using multiple call signs, the following conditions must be met:
 - A minimum of 44 QSOs per call sign.
 - A minimum stay of two hours in the protected zone.
- **Effective Time:** A gap longer than 60 minutes between 2 QSOs will not be counted towards the duration of the stay.
- **Log Consolidation:** If a station operates using multiple computers, a single combined .adi log must be submitted to the YUFF team.

2. Reference Activations & Deadlines

- **Reference Limit:** Activators can activate a maximum of two references in a single day. Only one reference can be reserved in advance, while the second "desired" reference is only available if it remains free.
- **Announcement Deadline:** Activators of Serbian protected areas must announce their activity to the coordinator no later than September 19, 2026, at 18:00 CEST.

Important: If operations are not announced before the deadline, contacts will count for hunters, but the activator will not qualify for the memorial award or diploma.

- **2026 Coordinator:** Miki Jakovljević, YT3X.
- **Contact Information:** Announcements can be made via phone at +381 65 599 599 9 (Call, SMS, Viber).

3. Schedule Publications

The coordinator will publish the final schedule of announced activities no later than September 19, 2026, by 23:00 CEST across the following platforms:

- [YUFF Facebook group](#)
- [YUFF official website](#)
- YU1SRS / YU0V discussions list

Each activator will be personally notified as quickly as possible regarding the status of their announcement reservation. All activators are credited with the reference activation for the 2026 YUFF diplomas. The official list of YUFF references is available at <http://yuff.co.rs/yuff-lista/>.

Diplomas & Awards

The YUFF Team will issue official diplomas in PDF format for the following achievements:

Category	Requirements for Qualification	Special Awards
Activators	Every station that activates YUFF references and submits their log within the prescribed deadline will receive the "YT2A Memorial" diploma. Activators of foreign protected areas must complete at least one QSO with activators of YUFF zones.	The YUFF Team may reward the activator with the highest number of completed contacts during the Memorial.
Hunters	Awarded to anyone who completes at least 5 QSOs with stations from different protected zones worldwide, provided that at least 3 of those are from Serbia.	The YUFF Team may reward the hunter with the highest number of completed contacts with YUFF activators during the Memorial.

Log Submission Guidelines

- **Format:** Logs must be submitted exclusively in ADI (ADIF) format via the official [robot link](#). This rule applies to both activators and hunters.
- **Alternative Email:** In case of technical issues with the robot link, logs can be sent via email to: memorial@yuff.co.rs.
- **Submission Deadline:** September 27, 2026, by 23:59 UTC.
- **Penalties:** Activators from Serbia who miss this deadline will lose their right to a diploma, and Articles 4–6 of the YUFF rules will apply.

The YUFF team commits to reviewing all incoming logs. Diplomas in PDF format will be officially available for download by October 30, 2026.

73 & 44,
YUFF Team
